No new taxes! Audit ODOT! As Oregonians, we are trying to live within our means. ODOT should be required to do the same. As a senior citizen, on a fixed income, the situation for survival in the state is becoming untenable. You and all your new legislation to introduce one tax after another is becoming so burdensome that you are going to price people out of their homes. You will be creating another demographic of homeless people. Please, do your jobs. Quit overpaying people in high positions within these bureaucracies.
