Our family is against the raising of taxes for transportation and roads. What needs to happen is accountability of where the \$ 1.8 Billion that ODot missed placed! The department heads need to be held accountable as well as the inept Governor lack of leadership. Oregon government has a spending problem that must be addressed. Start saving dollars by getting rid of DEI spending in all departments. We are already being overtaxed, and the governor's hatred of rural Oregonians is very clear to see. She talks down to us as if we are peons. We are offended by her inept leadership and her open corruption concerning the first concubine. It's no wonder there is a recall petition because most of this state is very angry with how her leadership and the party in control has open disdain for the voters especially the working-class rural voters. Accountability of all departments and spending needs to be audited to figure out where the fraud and waste is. Kotex leadership has destroyed ODF financially and in proper forest management. That needs fixing to restore timber harvests and monies to the counties through proper forest management. WE have no trust in current government and / or the party in charge to do what is correct to have more accountability of monies spent. Raising fuel taxes and doubling fees and taxes does not help the lower income or working class, her logic is out of balance. We urge the representatives and Senators to vote NO and against more taxes. We the people have had enough. Fix the overspending problems, eliminate useless programs like DEI, stop giving handouts to illegal aliens, the party in charge likes them more than Oregon citizens. We want our roads fixed, but things like bike lanes and Crime Lines don't fix the roads. We like our vehicles and our freedoms to travel. Party in charge doesn't like that we have freedoms to travel. Time to stand up to this corrupt and inept Governor and say no more taxes. Thank you.
