Topic: LC 2

As a life long Oregon Resident, United States Marine veteran, husband, grandfather and tax payer, I have never seen such reckless money management, disregard for the working class, blatant arrogance when it comes to federal laws all coupled with a drive to strip the working class of any chance to afford simple life needs.

You and your blind followers must stop this reckless abandonment of the common working class.

This is not a race between California, Oregon and Washington to see what governor can rob the poor, drive out the most businesses, or bankrupt retired persons.

Please stop.
