We can't afford Tina Kotek! Even as a state employee, I struggle to pay bills, make ends meet and certainly cant afford luxury items or good vacations. The "out of touch with Oregonians" and wasteful spending throughout the state and each agency is absurdly ridiculous. Republicans offered a solution, and it fell on deaf ears. We are extremely tired of the irresponsible spending and want to see accountability for the wasteful spending, not new taxes that we certainly can't trust to be spent responsibly. There are options for this budget, just not one she is wanting to make. Her personal agenda and ideology is bankrupting this state and its citizens!
