We Oregonians, who work and pay taxes, do NOT agree with the personal lifestyle and theatrics of Kotek or the democrats who allow her (and the unions) to intimidate, threaten, bribe and harass our state government into following her down the red road to economic and social destruction. What she does on her own time is her own business, but it has NO place in Oregon government. There is ample money to run the Oregon government and to fund ODOT IF she will stop spending it to hire people to shove DEI and Sanctuary status down the throats of honest tax paying citizens in this state. And stop threatening to lay off the blue collar ODOT workers while you are running ads to hire in more white collar employees at ODOT. We aren't stupid..... She is the laughing stock of America right now and you legislators will be also, if you join her.
