I am currently disabled and cannot afford for any tax hikes or for gas to go up. Our state does not need new tax revenue we need people to use a budget just like I have to do and only pay for what is most important. We don't need politicians enriching themselves and being greedy. That's what we see everywhere these days. I honestly hope Tina Kotek gets voted out by someone else. We can't afford anymore taxes. It's wrong for them to make it possible to make it so new taxes don't have to be voted on. That is criminal. Do not allow this to go through
