Topic:

I am writing to express my strong opposition to the recent bill under consideration. As an Oregonian, I am deeply concerned that this bill will place an unfair financial burden on taxpayers and further harm our already struggling economy. With businesses continuing to leave the state, passing this bill will only exacerbate the challenges we face, leading to more job losses and a weaker economic landscape for our communities.

We elected you to represent our interests, and that includes prioritizing responsible fiscal management. Balancing the state budget is crucial for the long-term stability of Oregon. I urge you to consider alternatives that do not rely on increasing taxes or further hurting our state's businesses. Our focus should be on making cuts and finding efficiencies in state spending, rather than passing additional financial burdens onto Oregonians.

Please listen to the concerns of your constituents and vote against this bill. Oregon needs budget solutions that focus on long-term stability and economic growth—not policies that will push businesses out and hurt the working families who can least afford it.

Thank you for your time and for your consideration.
