Measure, Appointment or
Topic: LC 2

These proposed tax hikes will destroy the livelihoods of your fellow Oregonians. This state needs less taxes, and more industries which will cultivate a thriving Oregon. In addition, we need accountability and fiscal responsibility, along with a commonsense approach to manage the already high taxes and fees we currently pay. California politics and policies have proven to be a total failure. Please reject the proposed tax hikes, and consider your children's children, families, neighbors, and the future of Oregon.

Thank you for your attention in this important matter.
