This Special Session is not warranted, the last Legislative Session shot down the ODOT funding increase with a justifiable cause, we as Taxpayers can't afford it! We are overtaxed as it is!

A 37% increase in fuel, this will increase the cost of everything, commute to work, goods and services

Car Title Fees (+136%), this will reduce car costs which is out of everybody's budget

Registration Fees, is there a war on Cars? I work at a Dealership and things are tight already, this will induce layoffs

Along with the above massive costs, it trickles down to just more of a burden on Oregon Families, the taxes and funds are there, you just need to prioritize your expenses!

Don't even get me started on DEI, Sanctuary City policies just as a start to the livability to real Oregonians?

We are 3rd Generation Oregonian's, Just stop, this is killing the state!
