

Submitter: Craig Hendrickson

On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

We is Oregonians do not deserve any more taxes.

You as elected officials are not doing your job

Work off of a balance budget and work off of the money you already have

The Republicans offered a way to fix the problem months ago, and you refused it  
because you won't listen to anything the other side has to say.

I truly believe there needs to be an investigation into the governor and an audit of her  
and everything. The Oregon government is doing.

We need to check the net worth of the governor prior to going into office and now that  
she's been in office and follow every penny to find out where the money came from.

I have to work off the money of my paycheck every single month and you're not  
taking any more of my money or my company money because you cannot work off  
your budget.

Stop wasting taxpayers money on Pride agenda and tampons boxes in all of the boys  
bathrooms in all of the schools.

It is an absolute waste of money.

Stop creating more problems work with what you have

Craig Hendrickson, democrat from Corvallis, Oregon
