Lawmakers of the State of Oregon

My name is Peter and I strongly oppose any new taxes on the taxpayers of this fine state. Further burdens to the already overtaxed American citizens is unacceptable. I would suggest you look long and hard at the current policies that have brought the cuts to ODOT.

Putting is on hardworking people that in many cases are barely getting by is nothing more than turning your collective backs in favor of illegal migrants and a fractional minority just to advance your agenda.

Perhaps you have noticed, Americans are fed up with the far left agenda. It's time to move to the middle and reject Govoner Kotek's pressure campaign and stand with the people of Oregon, both immigrants that came here legally and those that were born and raised in America!

Respectfully,  
Peter Congdon
