Please Gov Kotek- NO MORE NEW TAXES. Look to makes expense cuts FIRST.
I'm a senior citizen and born & raised in Oregon. I have served on several nonprofit boards and have volunteered for decades to help the unfortunate. However, we need to care of our citizens first and stop taxing citizens to death. We need to cut expenses from the drug addicted homeless programs that have shown no success and cut give aways to undocumented immigrants. I have absolutely nothing against undocumented immigrants. They need to go back and apply for citizenship the legal way.
