Funding

Measure, Appointment or
Topic: LC 2

To whom it may concern, I am asking you please, please do not raise taxes and fees on us again. We cannot afford it, my husband is an older man who is working 2 jobs to keep us afloat, I cannot work due to disabilities. Our grown children are in the same boat, they have children and cannot afford to keep paying more and more taxes. Is there any way to cut out unnecessary things in the budget? Please consider it, just know that there are people out here who have no more left to give. Thank you for your time and consideration.
