Funding

Measure, Appointment or Topic: LC 2

Oregonians are fed up with being taxed to death. We simply can't afford it anymore. You democrats like to say pretty words and pretend like you care for the people of Oregon but in reality, you talk about affordability while taxing us to death. No more. If that means cuts? Fine! But in reality, leaving the funding as it is doesn't have to force cuts to important services if you would just allocate less pet to projects social justice causes. My only hope is that by continually raising our taxes, people will finally wake up and vote every one of you out of office. Although even that is difficult because of your past redistricting. Many of us are to the point that we are ready to give up and leave the state...along with the many businesses that are also leaving. It's sickening.
