I would like my voice to be heard.

Shouting a big NO on tax and fee hikes on Koteck Labor Day weekend special session.

I have talked with many people in my community democrats, independents, and republicans all say NO!

I am from the small logging community in Vernonia Oregon. The proposed new tax on fuel, employment and fee hikes, will cause extreme harm to seniors, and those on a fixed income. If you live in the country the add fees and taxes will be devastating to families.

The domino effect will close doors on some businesses, will make other businesses move out of state, will do harm to residents of every county.

Restaurants, are some of the business being hard hit. If you think food prices are high now, wait for this bill to pass. Oregonians can't afford a smaller paycheck and higher prices on fuel, food and essential. Fuel prices will affect your power bill, phone, water, garbage, ect!

Do not pass this bill if you love Oregon!

Thank you,  
Leslie Seeberger
