Funding

Measure, Appointment or
Topic: LC 2

For the powers that be, I'm speaking as a person on a fixed income. I realize that for you that's hard to understand but it's real. I can ill afford any increase in gas prices, registration fees, title fees or anything else you have up your sleeve and I realize there's more but those really stand out. Needless to say I believe there seems to be a lack of accountability with the money you so kindly take from Oregonians. You really should listen to your constituents rather than do what feels good to you. Cause if you did listen you would hear a very loud and resounding NO MORE TAXES so maybe if you like what you do as a representative I would urge a strong NO to our Governor to maybe secure your job in the future. People are watching and it's very easy to find how one votes for this bloated bill.

Thank you

Dan Whitmore
