Topic: LC 2

Oregon is a beautiful state. One that I have called home for 46 years. I have witnessed first hand the economic and political changes. Tina says she doesn't understand why long term residents are moving to other states like Florida, Arizona and Texas. They can no longer afford to live here. Jobs are becoming scarce. Businesses are moving out of Oregon, to more business friendly states. I don't know why you insist on increasing the gas tax. Do you understand that it's not just the price of gas that will go up? So will the cost of goods and services. Those semi trucks that transport our goods and service are going to have to fill their tank. They pay more for gas, we pay more. I understand ODOT is a needed service, but find the money somewhere else.
