No! I don't want more taxes or raised fees. Quit trying to steal my money that you mismanaged and continue to mismanage. You should be held accountable for these actions you are trying to push through. It was already established as a no and you're trying it a different way. It's still a big NO! Use your own personal money to fund what you feel needs funded. A governor shouldn't even be paid, it should be a non paid position. Donate your whole salary to the state and show us you're doing your part.
