NO NEW TAXES or FEE INCREASES!!!

Oregon is already one of the highest income taxed states! Oregon even taxes Military retirement paychecks when other states do not tax a single dime of it!!! IE Texas!!! Families are already saving every penny to pay outrageous bills at the grocery stores, increased electric bills, and so called "safety" fees. We cannot handle the burden of failed policies and will not pay extra fees at the DMV or anywhere else. We live paycheck to paycheck as it is! Enough is ENOUGH!!! We live everyday in fear of a fire destroying our lives because the forests being mismanaged for decades. We cannot afford more tax fees at the gas pump to go to work to get taxed even more each pay check. People who cannot do their jobs get fired. Governor of Oregon? You need to be fired!!! The people who cannot maintain their budgets also need to be fired!!! Bring back accountability in voting! End mail in votes! End the war on land owners with water wells! We paid almost 40k to get a working well with good drinking water! End the talks on water metering! Manage the resources you have! Stop making Oregonians pay for failed policies!
