Tina Kotek is a joke! She can't balance a budget, but wants more taxpayer dollars to do it. She puts our children in danger by protecting illegals in the insane sanctuary state, yet she wonders why Federal Funds are being withheld for programs to help our children. What a Moron! You can't have it both ways. You cannot protect criminals that harm our children and then expect Federal funds to fix a problem that she continues to do. And to give her more power to raise taxes without House and Senate votes, is what is called an oligarchy, aka: a communist. Get rid of her forever.
