No to any new proposed taxes by the Governor of Oregon. The state needs to live within it's means, and stop demanding more money when we as taxpayers are more than overly burned with multiple tax increases that never seem to end. As a small business owner, farmer-rancher, I am at my boiling point with what is being proposed.

Please vote NO, on any new taxes proposed in the special session. The Governor and Legislature had plenty of time to figure this out before the end of session.

The state, and it's divisions need to live within it's means like the rest of us. And stop wasting money, and burdening the taxpayers with un-justified additional taxes. It is no wonder that people and business are leaving the state with a continual hammering and beat down of additional fees, and taxes.

NO ON ANY NEW TAXES AND OR FEES SUCH AS RESISTRATIONS FOR VEHICLES!
