Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I oppose any additional payroll and gas taxes and I oppose any additional fees. EV cars can receive a fee, but hybrid cars should not. Hybrids are much less intrusive on our infrastructure than EV's.

No additional or increased fees

No increase to gas taxes

No increase in payroll taxes

ODOT needs to be accountable for the budget it has and needs to restructure its priorities within that budget. It should not be using its workers on the ground to try to scare voters. That is very immature and not caring for voters or employees.
