Funding

Measure, Appointment or
Topic: LC 2

To the Governor and Legislature -

I am against this funding proposal for the special session transportation funding. Enough is enough. We do not want more taxes. And especially the Governor should NOT have carte blanche to raise the gas tax at their whim. It is an affront to the Constitution to try to acquire power where they are not held accountable for increased taxes. So, please, stop killing the state with extra taxation and undemocratic policies. Putting up money to pay for ILLEGAL IMMIGRANT legal fees and then wanting more money to pay for ODOT is a total slap in the face to our legal citizens. VOTE NO!
