Please do not raise our taxes. we will be one if the highest taxed states in the country. no on gas tax hike. No on registration increase. No on double dipping pay check taxes. Quite frankly Tina Kotek

you are destroying this state with your wokism, homeless crap and already high taxes. You also need to remove the illegals and let them come back legally so they can raise their hand and head and feel proud to be here in the USA. You are doing them injustice.

Thankyou
