Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am against any new taxes. We the people already denied your request in the Transportation Bill. No means no. The governor works for the people. We said no. To go against us and try again in a special sit down that cost the tax payer money, should be grounds for dismissal. You and your sneaky ways need to go. Also I do not agree to having you change the gas tax wording so we the people have no say in raising that tax. You are severely over stepping your reach. It is our money that we work hard for. We said NO YOU NEED TO LISTEN. We would not be in this position if the taxes that you already collect, actually went to the things they are supposed to go to. NO more general fund. You need to take your hand out of the cookie jar. We can not afford any more. We are not your cash cow. Raising the dmV fees by \$180 . Shame on you. No, no ,no!!!
