Topic: LC 2

As a tax paying citizen that files as Single, there is already approximately 25% of my wages taken for tax purposes that I do not see going for the intended purposes such as Oregon s infrastructure. I dont agree with Oregon as a sanctuary state nor do I agree with the governors decision to not comply with federal laws making the burden of replacing federal tax dollars placed on those who oppose being a sanctuary state. No more taxes, we are taxed enough. People in this state are struggling to meet their daily needs, increases in fees and taxes will only exacerbate their problems
