Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am writing this text to ask that you reconsider adding to our already high gas tax , car registration, employment tax, etc. Your answer to any financial problem is more taxes . We have had enough ! Our tax dollars have been mismanaged for years ! It's past time for some common sense and some investigation into how our tax dollars are actually used . You need to remember your job is to represent the citizens of Oregon's wishes not your own agenda. No more taxes !
