Funding

Measure, Appointment or
Topic: LC 2

Please do not raise our taxes again. Being on a fixed income is tough enough. We have to live within a budget. Please do the same. We've paid all our lives and always had to pay our own way or go without.

And please don't take away the rights of the legislature to have no vote on your gas increases. Sounds like you are acting like a dictator and we are not a fan of dictators. If these issues were already voted against then why are you not supporting the people who you are representing? You make no sense anymore.
