

Submitter:	Dustin Connell
On Behalf Of:	Oregon State Residents
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

The last 4 years since Covid and all of the price inflation have devastated my families way of life in Oregon. We still hardly afford what we need to for basic necessities and taking more of our money away is only going to hurt us more and destroy the people's faith in government which is already not looking good as it is. We're on the tipping point of having the rug pulled out from under our feet in life. Tax increase is not good we need help and that is not the answer.
