As a citizen of Oregon a single father of three kids paying rent high energy costs child support food because I'm not eligible for food stamps I recently lost my OHP and have to buy Healthcare that I cannot afford I can barely put food on the table let alone make it back and forth to work because I'm already struggling to afford gas I literally live payday to Payday with 50 to \$100 every 2 weeks after my bills are paid increasing all these taxes to pay for a program that was mismanaged is unacceptable there are other programs in Oregon that can be slashed like your Dei program or maybe remove money from the abortion program and put it for the roads you elected officials need to do a better job fiscally managing our money and lowering taxes so businesses will come here the more businesses that leave Oregon the more you guys tax the American people we need to lower the taxes so that the businesses come here so that you can lower the taxes and still make the adequate amount of tax revenue annually it's common sense
