Topic: LC 2

As a lifetime resident or I'm ashamed of how much it cost to live here. You're supposed to be the leaders of our great state and all you wanna do is text the middle class and make it harder to live here for everybody no more new taxes, I will not approve or will not ever Understand anymore of these excessive costs. You should be ashamed of yourself. Try to manage the money you already have and quit wasting it you're killing the middle class and the jobs for middle class people by pushing companies out of this state because of your taxes. It's already too expensive to live here. I do not approve what you're doing And will happily vote against everybody that passes new taxes anymore.
