Funding  
Measure, Appointment or LC 2  
Topic:

There is no way I can survive and continue to live in Oregon if there taxes and hikes are approved. I am already unable to make ends meet with the new hikes for basic utilities like water electric and insurance of all kinds.

Please think about how citizens will meet these new costs as other prices are adjusting. This is not the time to raise prices on Oregonians.

Citizens can not be the answer alone. Even raising payroll taxes will cost people their jobs and once again the citizen is the one who will suffer.

See us!!! We are real people with real families and real issues trying to do the right thing and pay our fair share. This cannot be the way to find the funding for projects and past bad financial decisions. We cannot be the solution to bad government decisions!

Hear us! See us! Fight for us!!! We can not afford these proposals! These are the very people who voted for you because you said you would fight for us!
