What does the DAS do? Why do we have multiple branches of government with their own HR and their own DEI departments? Why is our government state government so large? Please explain why we need so much oversight? Do we not hire honest people? Do we only elect corrupt leaders?

Ordinary citizens have to tighten our belts, our “leaders” are driving away businesses and investment from our state. Soon this state will be nothing but empty buildings and trash laden forests, parks and streets.

Using our road safety to threaten us into paying more is immoral, irresponsible and dangerous. I ask you do the right thing and stop this madness. Do not pass this senseless bill.
