As an Oregonian I absolutely oppose more gas tax and more payroll tax. Our taxes are already on the high end compared to other states. I oppose more taxes in general in Oregon. We have had reoccurring issues in Portland and our politicians have failed repeatedly fail to fix them. What they don't fail to do is raises taxes and ask for more money. Figure out the issues what the high tax dollars already paid. This set a dangerous precedent. Every time law makers deem they need more money they will just raise taxes. Put it to a vote by Oregon residents. If it passes then it passes but if it doesn't let's move on. The solution cannot always be too tax your constituents more.
