This feels like a power grab and will hurt working Oregonians. If you actually care about the values we hold as citizens of this state, send out a referendum, add the take hike onto the ballot, or, maybe, actually talk to us, the citizens of the state. You have done none of these things. Instead you choose to unilaterally slam this thing through -- much like a person you often speak out against -- and bring more harm to this state. This harm comes in the form of taxation without a voice from the people, accountability, and is exactly what our founding fathers fought against. If you continue to push through agendas like this, Oregon will continue to lose its tax base, citizens, and heritage.
