I am a 70-year-old disabled person who is living on social security and my child works but cannot afford his own place I already pay over \$200 registration fee on my 25-year-old car and cannot afford these tax hikes. I believe that this governor has not served the people well at all and now that federal funding is at risk and now, we the people are having to take up the slack. It is not only unfair to us but a huge burden on all the citizens because our government cannot seem to manage a budget. We citizens are FORCED to manage a budget and SHOULD NOT have to subsidize the government's inability to manage theirs.
