We're not tropical like Hawaii, or Sunny like California yet we're being taxed like a place that doesn't rain more than half the year. It's not our fault none of you know how to keep a budget. Yet you expect us to pay for your mistakes. News flash: we are already 4th in the nation on paying taxes. I am hard pressed to get through the month and eat every day. I already can't afford gas. Without gas I will lose my job if I lose my job no \$2000. for rent or \$350 for power, I wish I could move but I can't even come up with the money to eat every day. It's not my fault. It's yours. It actually sickens me to watch you on the news telling them how your protecting ,, "The citizens of Oregon" you are like some perverted Robin Hood who steals from the poor to give to the invaders. I have never seen such a monumental bunch of failures I walking around beating your chest like you actually do something. My family came here in a covered wagon. As soon as I can I plan to move as far away from here as I can
