We are a retired couple, my husband is 78 and a veteran. We pay enormous property taxes (which averages \$500 per month! That is over \$16 a day!) and along with utilities and gas and groceries is overwhelming. We can afford this but we need to be careful and we don't get a raise and have no options to make more money. It is extremely unfair to raise our taxes and make us pay even more. Too much money is being poured into illegal immigrants. Take care of our veterans and seniors 1st. And get our homeless the mental and emotional help they need! We have empathy for all humans but we need to help American citizens 1st! Stop these new taxes and budget better.... Respectfully, Nichon Wilz
