Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

As a native Oregonian now retired, I cannot afford more taxes for gas, higher fees to operate my automobile and I sure as heck do not want anyone to have the power to raise gas taxes that was not elected by the citizens of this state. Gas is a necessity in rural Oregon when you live miles from hospitals, doctors and other services where public transportation is not available. As a senior citizen our tax burden already cuts into our day-to-day necessities. We can't afford more, period!!
