I am the sole provider for a family of five.

I have 8 years with my current employer. I work full time.

These new tax proposals, if passed, can very likely cause me to lose my home. If that happens, it is likely I would need to move out of state to support my family.

My yearly raises do not keep up with all the new taxes. It's like taking a pay cut. How am I supposed to make life better for me and my family while bringing home less money due to over inflated taxes?

I have an idea. Let's do a better job handling the tax dollars you already receive!

I am not happy with our current governor or her agendas.

I love the state of Oregon. I have lived here most of my 58 years.

Please don't force me to move.
