To my fellow Oregon citizens. My husband and I are working class citizens. Something that is becoming harder and harder to be in this state. Tina, how do you expect for us working class to live with all of the continuing tax hikes? We are what makes this state tick. You continue to give and give to others that won't help take care of themselves. You take and take and take from those of us who strive to care for ourselves and our families. Eventually we will only be working to care for the lazy. You are going to run the entire working class out of the state. Then what will you be left with? All of the homeless, the welfare ridden, and the greedy that expect hand outs because that's what they've become accustomed to. Once that happens what will become of our beautiful state? It will turn into a third world country. More so than it already is. I've lived in this state my entire life, and I've never seen it worse off than it is now. It's ridden with pedophiles, drug addicts, rapists, gangs, etc etc. What are you expecting to come from this? YOU, are responsible for the turd train this state is on. You're running it straight into the toilet with your tax hikes and your continuous coddling of those who refuse to help themselves. When is it our turn to be taken care of? Haven't you ever heard the phrase "take care of those who take care of you"? I assume not. You're doing the exact opposite. If you continue on with this you're going to run all of the working class out. Who will you turn to for a nipple to suck off of then? You need to really think of the bigger picture here. We cannot take anymore. Figure it out or get out.
