Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

As previously stated during the legislative 2025 year I oppose the tax and fees increase the Governor is asking for. I highly oppose the Governor being the administrator over ODOT. The Republican legislators offered up a solution without raising taxes or fees for the ODOT budget. I believe we should use that solution. We spoke during the legislative year the legislators listened and voted against the tyrannical bill. If the metro area wants public transportation it should pay for it not the rest of Oregon that doesn't use it. All tax and fee increases should be put before the voters of the state of Oregon to decide. Please oppose any increases in fees and taxes along with a big NO vote for the Governor to administer ODOT. If anything needs to happen to ODOT it is a full audit..

As an Oregonian I opposed all of this legislation!
