Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I ask that you not raise taxes and fees to bail out ODOT. Please look into the root causes of the funding shortfall prior to considering any funding increases.

Oregonians simply do not need to fund an agency that will continue the same old ways. When, and if, you decide to raise taxes and fees, let Oregonians vote on any increase on our tax burdens.

I would rather you spend the time trying to convince companies and corporations to establish new industries that provide jobs for Oregonians.
