On Behalf Of:

Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I understand the reluctance to raise funds for transportation, but this is a time for lawmakers of both parties to come together and support critical infrastructure that affects all Oregonians, especially the coast, where I travel frequently. The increases in fees proposed in this legislation are necessary to provide for the maintenance of our rural roads and highways, and to sustain vital transit services in rural counties. It is urgent that this transportation funding bill be approved.
