Topic: LC 2

In Oregon we are getting used to not being able to trust Tina, and all her appointed minions all getting elected somehow without a challenger. Kate, and Tina cheated their way into power, and they proved immediately neither one of them represented what we wanted. They represent themselves, and whatever they can do to cheat the people of Oregon they will. From the rent increase law making it so landlords could raise rent 10% a year without reason so prices would go so high they could build government subsidized "affordable" one bed apartments at \$1300 a month. To the road projects ignoring the needs of drivers for their need to embezzle money on unwanted public transportation projects is idiotic at best to think we all don't get it. Tina's appointed minions have stolen a billion dollars from ODOT and Tina isn't making an attempt to find it, or cut the useless projects, or get rid of the ODOT people she appointed who "lost" a BILLION dollars. They want us to make up for it. What we need to do is start some kind of public petition to stop the unnecessary spending, freeze her theft from the state, and recall Tina with all of her appointed cronies. The last thing we need to do is give this crook more money to steal for her, and her friends. Tina has done so much damage in such a short time that even lifelong democratic voters like myself have to stand up, and call out a dishonest crook in my own party, and change my vote. Tina has hidden all her moves against Oregon behind the lgbtq, and female card. She has never once played the representative of the people card. She should have never been up for election, let alone be able to single handily bankrupt Oregon for her profit. There are women, and lgbtq people who would be fine as representatives, but Kate and Tina are horrible people hiding their theft behind a movement not caring about what it does to that movement. Just like Tina doesn't care that the extra cost she has added to every aspect of life is hurting the people of Oregon. Most of those costs are things like unrealistic rent increases, 40 cents a gallon for using your card for gas, or her photo radar scam to the out of state companies that are making our insurance unaffordable even for those who don't get tickets.

please don't let Tina's greed do more damage to us than she already has. we need to start having audits of every project, and dollar spent to start holding people responsible for what they are spending by publishing the project information, how much it all costs and every company, or person who is making money from it, and how much. We as Oregon's should have a state ran site specifically dedicated to this that we can easily find out all this information of how the money is being spent. We are at the frog in boiling water point now. If we had a system like this in place we could have done something sooner before Kate fixed it for Tina to take over the theft next.
