Our Governor is so out of touch with anyone other than politicians with comfortable bank accounts. Make cuts on work from home jobs to keep the actual laborers out on the streets. Leave car registrations, titles and boating fees alone and tax electric cars and bicycles that also use the road. Think if the people who voted for you but are now disgusted. Try, for a change, to think of the residents that are struggling to keep heat on in winter, a/c on in summer, and having a hard time keeping up with already inflated and rising costs of living. Simply...have compassion rather than ego in seeing your name in the news.
