Topic:

To our committee members,

I implore you to vote against this horrible bill to add more taxes to our already overtaxed state! If the desired result of more taxes is to get people to leave our beautiful state, then that will be the result. I hear people talking often about leaving Oregon because they cannot afford to live here. I have children renting houses and the cost is out of control! Our gas is already so much higher than other states who are finally getting relief in that area. If you are truly representing "We the People", than our vote is NO!!! to more taxes!

Thank you for standing against this horrible tax increase!
