Dear Oregon Legislature,

I am writing in regards to new tax hikes that are being proposed at the special Legislature meeting. I am writing and hoping these taxes will be opposed.

I am a working Oregon professional and these new fees and taxes would have a negative impact on my livelihood plus other working Oregonians. I live in crooked river ranch and work in at rural hospital in John Day Oregon, increased taxes at the pump would definitely negatively impact me, plus increased DMV fees. The hospital was able to provide only a 2.5 % increase in wages this year and with our health care coast going up also this year. Me and other families I am sure are going to struggle to make ends meat.

Please consider voting no on these increased taxes and fees.

Thank you for your consideration and hard work.

Sincerely
Michael Neuman
