Hello Ms. Drazen and all Oregon Legislators :

The tax increases proposed by our Democratic legislators are preposterous! As you know, Oregonian are struggling partly due to high taxes caused by crazy drunken spending. 15 million \$ for attorney fees to help illegal aliens fight the law is only one example. Others include millions spent inviting house less to Oregon by offering "free" health care, housing, etc.

PERS is an example of poor management resulting in large losses for members when there should of been gains. No changes made, let's keep paying millions to the managers the responsible managers - not!

Zero road fees for electric vehicles is nothing but a boost to the wealthy.

Re the Transportation budget, gasoline revenue may not be rising because of all the electric vehicles that cause more road damage because of their weight but pay ZERO \$ in road fees. A real boost for the wealthy.

There's a lot more but I thank Ms. Drazen and our Republican legislators for their help and this opportunity.

Thank you

Don Slaybaugh
