As a taxpayer in Oregon,I do wholeheartedly oppose these new tax proposals by Governor Kotek. We are all struggling to survive here in Oregon,frankly a problem politicians do not have. Failing to balance the budget responsibly is not our doing. We should not be forced to pay for her inability to balance the states budget.We are already being taxed to death for everything under the sun,and these proposed new taxes would only make things worse for us. The waste in government in general must be dealt with,instead of placing the burden to make up for it on our backs. Respectfully,please do not pass these new proposals.
